Union Pacific Gives Reward.

Milton Anderson and Levi Anderson, aged 11 and 14 years, each received checks Saturday morning from the Union Pacific railroad company for twenty-five dollars as a reward for services rendered. The boys are sons of Mr. and Mrs. A. H. Anderson residing northwest of Hershey. In the latter part of March as they were returning from school they noticed a bridge on the branch line west of O'Fallons a fire. They rushed to a telephone and tried to notify the men at Sutherland but were unsuccessful. They then drove into Sutherland and notified the men and returned and kept watch, flagging all the trains.

The bridge which was burned was across an irrigation ditch and the incident was reported in this paper at the time. The boys put in no claim for reward but the matter was reported to headquarters and the boys received the checks gratuitously.
